EDMONTON, ALBERTA, SATURDAY, SEPTEMBER 12TH, 1891.

No. 46.

TELEGRAPHIC.

OTTAWA, Sept. 11.

Judge Tessier of the supreme court of Quebec has resigned owing to ill health. It has been decided not to permit the slaughter of American cattle in England.

Senator Lacoste has been appointed chief justice of the Quebec court of appeal. De-boucherville will succeed him in the speakership of the senate.

In the commons on Thursday Patterson of Brant moved that sugar under 16 duty standard be free and over 16 $\frac{1}{2}$ a cent per pound. Defeated by 102 to 78.

On Wednesday Cartwright suggested that as such poor use had been made of the funds voted for immigration the whole sum be handed over to the Northwest to spend as they thought best.

The senate railway committee has reported that the charges of the corrupt use of \$175,000 of subsidy granted to the Baie des Chaleurs railway by the Quebec legislature has been proven, and among the persons profiting thereby were Mercier, Pelletier, Picaud and Charles and Francois Langellier.

An amendment to the Northwest bill provides for a new electoral district in Eastern Assiniboia called Cannington, composed of two tiers of townships from the northern side of Souris and two tiers from the south-east side of Moosomin, Broadview and Grenfell. The schedule divides the representation as follows: Alberta 8, Saskatchewan 6, East Assiniboia 8, West Assiniboia 4.

The investigation into the printing bureau scandals on Tuesday showed that Senecal ordered type from the Dominion type foundry and subsequently repudiated the order. Chapleau also wrote them saying that Senecal had no authority to give orders. Some time afterwards the type was accepted on payment by the company of \$1,500 to the conservative association in Montreal. Roland, the Montreal paper manufacturer confessed to giving \$1,000 to the association at the last election and got a three years contract with the government. It was also shown that Chapleau personally solicited subscriptions to the association from other persons having dealings with the department.

ACCIDENTAL DEATH.

On Friday afternoon between one and two o'clock as S. Wilkinson who was digging a well for A. F. Degagne, and at the time was engaged near the bottom in fixing some wooden piping which he was putting in to carry off the foul air that had prevented his working in the well for the past two or three days. Joe Anderson, who was working the windless, heard him signal to be hoisted out. Anderson at once commenced to hoist, and after he had raised Wilkinson, as he supposed, about twenty feet from the bottom, Wilkinson fell from the bucket, overcome by the foul air. A crowd soon gathered at the well and John Turner of Stony Plain was let down to try and bring Wilkinson up. On reaching the bottom he found Wilkinson, as he supposed, dead and attempted to tie the well rope around him, but was unable to do so as the gas was overcoming him and he had to signal to be hoisted out. Fire was let down the well several times afterwards but it always went out before getting near the bottom, showing that the gas was still too strong to permit any person to descend. At last a pair of ice hooks were procured and with these the body was grappled and brought up. Dr. Royal was in attendance and used every effort to revive the man, but it was useless as he had lain in the deadly gas fully two hours, and besides was bruised on the head by his fall, which had probably stunned him. The well was about eighty feet in depth. Deceased was a coal miner and well digger by trade, and well understood the dangers of his calling. The funeral takes place at 2 o'clock this afternoon from Jas. Gibbons place to the Edmonton cemetery.

SAMPLES.

Wednesday's train took away a number of samples of Edmonton grain in the straw, and grasses and vegetables, which will form part of the C. P. R. exhibit at the eastern fairs about to commence. The samples were collected by M. McNauley and were such as would do credit to any country where grain is raised. They included red fife wheat from M. McLeod and H. McKay, Belmont and H. Goodridge of Livingston's creek. Ladoga wheat from Geo. Hutton, St. Albert and P. Ottewill, Clover Bar, red club wheat from E. Paquette, Stony Plain Indian reserve, white club wheat from Geo. Hutton, St. Albert, Azof wheat, from W. H. Stephens, East Edmonton, P. Ottewill and A. Fraser, Clover Bar, Genesee club wheat, from D. Maloney, St. Albert, G. Lacerte, A. McNabb and J. McPherson, Stony Plain. Clover from Messrs. Lacerte, McNabb and McPherson, from D.S. McKay of Livingston's creek and P. Ottewill of Clover Bar. Two rowed barley from D. S. McKay of Livingston's creek and D. Maloney, St. Albert. Six rowed barley from J. T. Turner and P. Ottewill of Clover Bar. Some of the samples of oats were over six feet in length in the straw with over 200 grains on the head. Some of the wheat and barley pulled by the roots had 22 and 23 straws from each root. Samples of pea vine were six feet in length and of setch and blue joint grass seven feet in length. Besides there were sent samples of swamp grass, beets, carrots, onions, cabbage, cauliflower, clover and berrybushes, the latter to show the rankness of the growth in this district. One shoot of a blackberry bush measured seven feet in length. The vegetables were merely sent to show that such things grow here and were not selected with a view to getting the largest size. If the grain samples get anything like a fair show they will establish the reputation of the Edmonton district as the champion grain growing locality in the Northwest.

THE Empire has done some figuring as to the effect of the recent findings of the census in the matter of a redistribution of representation. According to the law on the subject Quebec is entitled to 65 members of parliament. This number divided into the total population of Quebec gives the number which when divided into the total population of each of the other provinces gives the number of members to which that province is entitled. Under this system every 22,901 people is entitled to a member. Ontario's increase of population over Quebec is not quite sufficient to entitle it to an additional member. The maritime provinces having had less increase in population than Quebec are subject to a decrease in representation. Nova Scotia and Prince Edward Island would lose one member each and New Brunswick two members. Manitoba is now entitled to seven members, an increase of two. Although the Territories and British Columbia have increased very largely in population they have not yet the limit of population per member so as to entitle them to an increase.

THE census returns of the Maritime provinces contain a rather good joke on the government. To Nova Scotia and New Brunswick it is chiefly imputed for its present majority in the house. In the course of the redistribution of representation made necessary by the recent census it will become the delicate duty of the government to reduce the representation of these two friendly provinces by some three members. When this reduction takes place it will be such an object lesson as to the benefits of a protective policy to a people whose whole interests lie in the development of foreign trade as it is to be hoped will not be had upon them.

THE fine weather of the past few weeks was succeeded by a soaking rain which set in about six o'clock on Thursday morning and continued all day.

BIG GUNS.

A special train with three private cars, the Saskatchewan, Metapedia, and Supt. Whyte's private car, arrived on Tuesday morning about 6 o'clock. A distinguished party was on board, amongst which were included Lord Mount Stephen and Elphinstone, W. C. Van Horne, president of the C. P. R. company, W. Stephens, brother of Lord Mount Stephen, J. W. Sterling, banker of New York, Russell Stephenson, director of the H. B. Company, P. A. Peterson, chief engineer of the C. P. R., L. A. Hamilton, land commissioner of the C. P. R. and M. St. Jean, chief of the advertising department. The train left Calgary on Monday evening at ten o'clock and as no notice had been given of its coming and there was only an indefinite rumor current that such a train might arrive about that time, no one was at the station to meet them, as the town was still asleep, and the very distinguished visitors hoofed it over to town in most undignified style. Their endurance held out until they reached the telegraph office, but they decided to turn back from there, getting a ride on one of D. C. Robertson's drays. It is rumored that his tiresome tramp left the great Van Horne in not the best of tempers, but Lord Mount Stephen declared that the view up and down the Saskatchewan from the ferry scow in mid stream while the freshness and dew and haze of early morning covered everything was well worth the trip. He had long wished to see the North Saskatchewan of which he had heard so much, and having seen it was delighted with it. The special pulled out for Calgary at 8:30 and travelled at slow speed to Calgary to permit the travellers to view the country along the line. From Calgary the party goes to the Pacific coast.

REGARDING INCORPORATION.

ON Thursday a deputation consisting of John Cameron, E. Carey, J. A. McDougall, Dr. Wilson, M. McCauley and C. F. Strang, waited on the lieutenant governor to get information regarding the incorporation of the town, and also to enlist the good offices of his honor in regard to a proper location of the proposed government buildings. In regard to incorporation they were advised to proceed to incorporate by ordinance of the assembly specially prepared with a view to the town, instead of depending upon the provisions contained in the municipal ordinance. In regard to the location of the government buildings the lieutenant governor said that after making a tour of the territories as at present he was expected to report to the government on public matters as he found them. He would certainly report in favor of the location of the public buildings on the north side of the river and considered that it would be a great injustice to the pioneers of the place if they were not so located.

LOCAL.

R. A. McLeod purchased lots 39 and 40 block 1, River lot 1, Edmonton, on Monday through Jas. McDonald for \$400. These are the Main street lots occupied by the building recently purchased by Mr. McLeod and occupied by M. Connor as a furniture store.

A PARTIAL frost occurred in Minnesota, Dakota and Manitoba on August 21st. On August 20th general frost occurred throughout the same region. In the Canadian Northwest generally there was an approach to frost on August 21st but none here. In the Edmonton district there has been complete freedom from frost up to the present date. Edmonton has the best climate as well as the best soil in the Canadian or United States Northwest.

It is reported that the car load of Edmonton coal sent to Calgary some weeks ago to be tested has not proven altogether satisfactory. Used for raising steam in the electric light works it was pronounced excellent coal for raising steam but not profitable because it burned away too quickly. Trials in stoves led to various opinions, some pronouncing it inferior and some superior to the Galt coal. Although this first trial has not been altogether satisfactory it would be unwise to give up the attempt to work up an outside demand for our coal.

A MOVEMENT is on foot to have the lower Edmonton ferry moved up the river to a point opposite town, so as to give more direct access from the business portion of the town to the railway station and to have the advantage of the much easier grade up the hill on the south side from the mill flat, in preference to the grade up the hill from the Upper ferry. A considerable sum has been raised by private subscription to make the necessary grades on each side of the river, and as soon as these are completed the change in the location of the ferry will be made.

THE following properties were purchased through the agency of F. Heinicke & Co. this week: Sylvester Green, Montreal, 6 lots for \$750, R. Balfour, Winnipeg, 3 lots for \$250, P. C. Campbell, Calgary, 4 lots for \$200, Edward Leoby, Edmonton, 4 lots for \$250, J. C. C. Bremner, Clover Bay, 4 lots for \$650, W. D. Clark, London, Ontario, 1 lot for \$125, R. Peters, Orillia, Ontario, 2 lots for \$200, Leese Authier, Edmonton, 1 lot for \$100, Beck & McNamee, Edmonton, 2 lots, \$400 and D. R. Stewart, Edmonton, 2 lots for \$200. The greater number of these lots are on the Pritchard estate recently opened for sale.

Ross, Camrose, lot 4, block 61, M. T. Telford, Leduc, lot 10, block 45, W. T. Hestley, lot 1 to 7, inclusive, block 50, W. T. Tennant, lot 8 to 14, inclusive, block 97, W. T. L. A. HAMILTON, land commissioner of the C. P. R. arrived on Tuesday morning on the special train, and remained over to look around the country a little and size up the crops. On Tuesday afternoon he was driven through Clover Bay settlement by M. McCauley and took several photos of the grain fields, which are calculated to astonish the natives of less favored regions. On Wednesday he left for the Athabasca Landing to visit the country in that direction for the first time, and may also visit Lac la Poudre. Mr. Hamilton is anxious the Edmonton should make a good display of grain, particularly of wheat, at the Winnipeg exhibition, and thinks that this district should take some good prizes if the best is done that can be. He also promised every assistance in giving the Edmonton produce shipped on Wednesday due prominence at Eastern fairs.

Lethbridge has 2,165 people.
